The Healing Code Cards are unlike any form of spiritual healing technology previously available. These cards are very much alive and contain the essence of Spirit codes within them.

Like the feeling of a living Tarot deck, the Healing Code Cards are specifically designed to detoxify and eliminate viruses within specific areas of the body and enhance as well as amplify the body's vitality.

With the new Body Deck Special Edition, the printed

cards are professionally laminated for protection and are included inside a sleek, custom-made tin box for storage.

Healing Code Cards are not a replacement for your physician or health practitioner, but they assist with additional healing on a deep spiritual level. Please note that I am not a doctor or medical practitioner and the Healing Code Cards are for the purpose of alternative spiritual healing only.

I, Brad Johnson, am the creator of the Healing Code Cards, and I have been working deeply with the energies of Spirit for well over a decade at the date of this publication. My connection with Spirit is very personable and Spirit has worked with me deeply imbuing its own codes of healing within these cards. Science may not discover the true nature on how these cards work effectively for decades or possibly even centuries, nonetheless; the Healing Code Cards are a

powerful tool for healing whether one believes in them or not.

Like others who have worked with Spirit directly such as Edgar Cayce and Anthony William (“The Medical Medium”), I too have worked with Spirit to bring you an advanced healing technology through these cards for your own personal usage.

Through this instruction booklet, you’ll have a brief overview on how to use these cards and how

particular cards function as they may differ from others in the deck. You can also find greater detail regarding the contents of the cards as well as some free sample cards and tutorial videos found on the Healing Code Cards website:

4 Amplifier Cards

Enhancer Cards

The Enhancer cards are the ones that work to detoxify and eliminate viruses, toxins and disorders within the body. They also strengthen, enhance and amplify the area of the body in question bringing it back into healthy vitality.

Purifier Card

This card is meant to work later on when the majority of the organs have already been worked on by the Enhancer cards. Once you feel you have done thorough work on your major organs, work with the Purifier card to implement a stronger purification of Spirit code healing to your organs giving them an additional boost. This card works with all major organs simultaneously when used.

Eliminator Cards

These cards are specifically designed to handle common issues within the body such as headaches, stiffness, pain as well as a special Virus Eliminator card where you can speak to the card aloud or in your mind on what virus within your body you would like it to eliminate.

Amplifier Cards

These cards work on a single Enhancer card only of your choosing to give it a greater amplification of vitality. It's important to

know that the Amplifier cards should only be used if one is completely accustomed to the natural intensity of the Enhancer cards and should not be used if the Enhancer cards create an intense feeling within yourself when using them.

Using the Enhancer Cards

Place your chosen Enhancer Card on any area of your body you like and leave it there for a minimum of 60

seconds if you can. After that time, you can remove the card.

Another option is to pour a glass of pure water and lean your Healing Code Card against the glass, or you can have it on a table, place a coaster over it and then put your glass on top of the coaster. Leave it for 60 seconds and then begin to take light sips of the water until it's gone.

If you find that the Enhancer card you've chosen becomes very

intense energetically for you to look at, turn off your screen and drink a glass of pure water and rest for a short amount of time. It's okay if you're not able to stare at it for up to 60 seconds. Be aware how long you're able to stare at it and work your way up each day. Every person is different, and each person will have their own threshold level of tolerance regarding the intensity of the cards. Once you're able to reach up to 60 seconds, your body will have received the full effect

of receiving the Healing Code Card.

Keep track of your daily progress with a notebook or diary. Look within yourself to find out what issues you may be having prior to working with the cards.

Are you tired, fatigued, sore, stiff, in pain in certain areas? Write all of this down and work with the cards each day based on your tolerance threshold and monitor how you feel daily.

Using the Purifier Card

As mentioned previously, this card is only to be used after you've done some thorough work with your body using the Enhancer cards. When you know your body is feeling better and your vitality is increasing, then you can work with the Purifier Card. The usage is identical to the instructions of the Enhancer cards. The Major Organ Purifier will perform a deeper cleansing of all internal organs within the body.

Using the Eliminator Cards

The Eliminator cards are designed for specific ailments/sensations within the body. It also includes a Virus Eliminator card.

To use the Virus Eliminator Card, look into the card and tell it within your mind or aloud the virus within your body you would like to have eliminated. After you have said it, continue to stare at the card, or place the card anywhere on your body, or charge water with the card for a total of 60 seconds.

For the other Eliminator cards, tell the specific card that you have a headache and want it cleared, or you have pain in the body and want it cleared, or stiffness in the body and want it cleared. Apply the 60 second rule with the routine of your choice after stating your intention to the card.

Using the Amplifier Cards

First off, if you're using the Healing Code Cards digitally, I would recommend printing out the

Amplifier cards onto photo paper in their original size as well as any corresponding card you'd like to use with them. Amplifier cards cannot overlay themselves behind another card on a digital screen. It won't work.

The Amplifier cards should only be used if you're firstly able to tolerate the natural intensity level of each card. If you can and you'd like more of a boost, that's where the Amplifier cards come in.

To use, place the Amplifier Card of your choice down upon a table to charge water or place upon your own body. Next, place an Enhancer, Purifier or Eliminator card of your choosing ovetop of the Amplifier card. With the water routine, have both cards on top of each other and place a coaster ovetop both cards and charge your water for 60 seconds. Amplification commences when a SINGLE card has been placed over the chosen Amplifier card. Once

it is taken off the Amplifier card, the amplification will cease. The Amplifier card WILL NOT work if two or more cards are on top of it. It has been calibrated this way so it won't amplify multiple cards and become intensely overwhelming.

The Capture Method

This is the fourth, and I would say, the most effective method in using the Healing Code Cards in general.

The Capture Method

involves printing out a photo of yourself or another person who you have permission in using the Healing Code Cards on. Using the printed photo, place it upon the Healing Code Card(s) of your choice with the photo image face-down. You can leave it on the card(s) for as long as you wish and it will continue to work on the image of the person in question. For more info on the Capture method, please visit the Tutorials

page on the Healing Code Cards website.

Final Note

In conclusion, pace yourself out each day as you use the Healing Code Cards. It's important that you are not overwhelming yourself with the intensity of the cards. You must be responsible for your own well-being and work with the cards with care and at your own risk.

Remember, if you are ever overwhelmed, put the Healing Code Cards away,

drink water and rest so that your body can ground all the spiritual energy you're receiving from the Healing Code cards. The cards will never harm you, but they can feel intense and can be known to make one feel dizzy or light-headed if used for too long. Please be aware of this.

Thank you for your purchase of the Healing Code Cards. A reminder to use them frequently as best as you can without feeling overwhelmed to experience the best results. Also

remember that these cards are an alternative and an additional form of healing. Please continue to investigate additional methods of healing for your wellness as well. I hope the cards serve you well on your healing journey.
